DATE MAILED:

Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

The reply filed on June 15, 2007 is not fully responsive to the prior Office action because of the following omission(s) or matter(s): an election of group B does not satisfy the requirement for an election of a species as required by the Office action of May 15, 2007. In order to be fully compliant with the election of species requirement, as stated on page 3, lines 10-11 of the prior Office action, applicants must elect a specific species (unless stated otherwise) from each grouping also stated on page 3. For example, group A requires a specific non-paramyxoviral envelope protein composition of claim 58 (i.e. an ectodomain and a transmembrane domain of the baculovirus GP64 protein and a C-terminal sequence of a respiratory syncytial virus fusion protein F, or the baculovirus GP64 protein). The applicants are notified that any claims not reading on the elected invention/species will be withdrawn from consideration. See 37 CFR 1.111. Since the above-mentioned reply appears to be bona fide, applicant is given ONE (1) MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
